ADHD Planner

one small step at a time

This planner belongs to _____

How to use this planner

There is no wrong way. Use what helps, skip what doesn't.

1

Start with a brain dump

Empty every thought onto the Brain Dump page. Your brain is for having ideas, not holding them.

2

Pick only 3

Each day choose just three priorities. Finishing 3 feels better than failing 15.

3

Break it down

Stuck? Use the Task Breakdown page to turn one scary task into tiny 5-minute steps.

4

Use your Dopamine Menu

Low energy? Pick an 'appetizer' from your menu instead of doom-scrolling.

5

Track gently

Missed a day on the habit tracker? Leave it blank and keep going. No guilt, just data.

6

Print what you need

Print extra daily or weekly pages any time. Works great in a binder or on a tablet.
